

Is your childcare center facing new and overwhelming challenges?

Could the families and staff you work with benefit from mental health expertise?

Your center may be eligible for FREE support services

Austin Child Guidance Center's Infant/Early Childhood Project collaborates with childcare centers to improve the social-emotional functioning of children 0-5. We provide staff and parents with training, strategies, and support so that they can build strong foundations for children's lifelong success and wellbeing.

ACGC's Infant/Early Childhood Program can offer:

- Staff trainings on a wide range of topics
- Consultation to discuss classroom and center success
- Parent workshops
- Trauma-informed care strategies
- Information on childhood development and SEL skills
- Teacher support groups

Email cpicot-jacobs@austinchildguidance.org for more information!

This project is made possible by Travis County, United Way, and the Michael & Susan Dell Foundation
