About this Guide

The following list is provided for informational purposes only. Many of these providers have been recommended by those in the trans community who have received their services, or by those with knowledge of culturally competent providers. However, providers or organizations mentioned here may or may not be suitable for every individual or family, and Transgender Wellness, a program of Out Youth, cannot guarantee the quality of service you will receive.

As a result, this is a living document that will be continually amended and updated. We welcome feedback on this guide and hope that as you come across services or providers who are friendly, informed, and affirming, you will share this information with us so we can enhance this list of referrals. If you operate a business or service that is not included in this guide, we apologize for the oversight and invite you to contact us so we can correct the mistake.

We hope that this collection of resources will be useful to you on your journey!

If you have feedback on this document, please email Wes Cowan, social worker, at wes.cowan@outyouth.org.

Out Youth/Trans Wellness

The majority of clients we serve identify under the transgender umbrella. As such, we provide several services for trans youth and young adults ages 12 - 23, and provide services to adults 18+ through our Transgender Wellness Program.

OUT YOUTH:

Youth Gender Identity Group

Every Wednesday from 6:20 - 7:00 PM, we provide a support group on the topic of Gender Identity for youth ages 12 – 18 as a part of Out Youth Drop-in Programming.

Individual Therapy

We offer individual therapy for many clients ages 12 – 23 exploring issues related to gender identity. In order to be connected to this clinical service, we first complete a counseling screening with each individual, which can be requested online at screening.outyouth.org.

Family Office Hours

Cassidy Laminack, LMFT Associate, LPC Intern, holds family office hours every Sunday to meet with families with LGBT youth, and offer information and support. If you are interested in attending Family Office Hours, please visit <https://www.outyouth.org/support-for-families> to complete a request form.

"The overall goal of the SOC is to provide clinical guidance for health professionals to assist transsexual, transgender, and gender nonconforming people with safe and effective pathways to achieving lasting personal comfort with their gendered selves, in order to maximize their overall health, psychological well-being, and self-fulfillment."
