

PROBLEM

40% of children enter kindergarten unprepared.

SOLUTION

PCHP is proven to prepare graduates for school success.

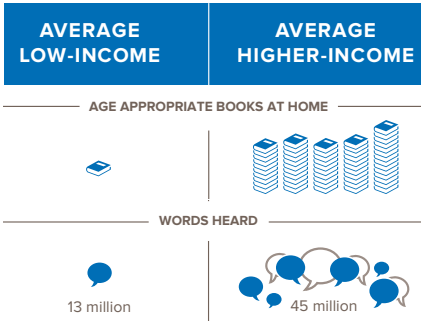

PARENT-CHILD HOME PROGRAM

50 YEARS OF PROVEN SUCCESS

OUR VISION:

Every child enters school ready to succeed because every parent has the knowledge, skills, and resources to build school readiness where it starts: the home.

THE ACHIEVEMENT GAP STARTS BEFORE CHILDREN ENTER SCHOOL

58% of PCHP families are non-native English speaking.

A PROVEN BEGINNING FOR SCHOOL SUCCESS SINCE 1965

Under-resourced parents often lack the resources to prepare their children for school and the support to teach their children at home. The Parent-Child Home Program helps eliminate the achievement gap by giving these parents the tools, skills, knowledge, and encouragement to prepare their children for school and life success.

RESEARCH VALIDATED MODEL

- Works with families with children 2-4 years old challenged by poverty, literacy and language barriers, limited education, and isolation.
- Each family receives 92 home visits over the two program years.
- Trained community-based early literacy specialists model reading, play, and conversation activities for parents and children together.
- Families receive at least 46 books and educational toys to build language and literacy-rich homes.
- Curriculum guides provide families with literacy, numeracy, and school readiness activities.
- Families are connected to other needed supports, including housing, medical, and educational services.
- Site staff work with families to ensure every graduate is enrolled in a high-quality preschool.
- Professional site coordinators, typically social workers or certified early childhood teachers, provide ongoing training and supervision for early literacy specialists and oversee support and referrals for families.

80% of PCHP families have annual incomes of \$25,000 or less.

The Parent-Child Home Program builds language-rich home environments, increasing positive parent-child interaction, and developing pre-literacy and social-emotional skills that are essential for school readiness.

PCHP PROVEN OUTCOMES

PCHP children are **50% more likely to measure ready for kindergarten** than their socio-economic peers.

Program graduates **scored 2 ½ times higher on social-emotional skills assessment** than the control group.

Enter school performing **10 months above their chronological age**.

Outperformed the statewide average on third grade state math achievement test.

30% higher graduation rate than their socio-economic peers.

50% less likely to be referred to special education services by the third grade.

84% of Parent-Child Home Program families have not previously had access to quality early childhood services.

“The PCHP staff became my family and my support system, and I truly could not imagine raising my daughter without the support and encouragement they’ve provided and continue to provide.”

– PCHP Parent 2013

PCHP IS PROUD TO BE DESIGNATED A...

“Bright Spot Program”

- White House Initiative on Educational Excellence for Hispanics
- The Campaign for Grade-Level Reading

“2016 GreenLight Portfolio Organization”

- GreenLight Fund Philadelphia

“PCHP kids arrive at school familiar with materials, confident to explore, and ready to learn; parents arrive at school familiar with the system, confident in their parenting role, and ready to be involved.”
– Former PCHP Site Coordinator

NATIONAL CENTER SUPPORT

The Parent-Child Home Program’s National Center ensures that under-resourced families across the country have access to the Program by:

- Identifying underserved areas and working with local partners to successfully implement the model in their communities.
- Providing local partner agencies with comprehensive training, technical assistance, quality assurance, and ongoing research and evaluation.
- Providing seed funds and assisting with fundraising to start, sustain, and expand services in underserved communities.

Your gift to The Parent-Child Home Program provides under-resourced families across the country with the necessary tools to ensure their children achieve their greatest potential in school and in life.
