

We strive for a world in which all people are valued, included, and empowered.

Project Worthmore works to restore worth to our refugee neighbors through the heart of the community. Our mission is to provide programs that foster community, self-sufficiency and increase quality of life among Denver-area refugees.

Started as a makeshift response to the unmet needs of our refugee neighbors in 2009, we have grown to offer six comprehensive programs including:

An English Language Program to increase comfort and fluency with English language to aid in integration.

DeLaney Community Farm to provide refugees access to farming, healthful food and community.

Community Navigators to foster independence and self-sufficiency.

The Yu Meh Food Share to increase access to healthy, fresh food.

A Family Partnership Program to facilitate social bridging, provide a sense of inclusion, and encourage families to fulfill their personal goals.

The Worthmore Clinic to reduce and eliminate oral disease that relates to poor systemic health including diabetes, cancer, stroke, heart disease, and low birth weight for infants.
