

# **RWENZORI SPECIAL NEEDS FOUNDATION**

## **Brief Report**

### **For the Month of October 2016**

**THE NURSERY SCHOOL**

We are at the close of the term and the school activities have been going on well, with no serious challenges, except having an increased number of pupils who will need an extra classroom for next year.

**SURGERY, MEDICATION AND REHABILITATION**

We received the children who went for surgery and they were successful, some of which are still receiving extra medication still under the support of Rwenzori-NZ. We had about 3 clients for club foot who had their surgery done in Mbarara and 1 who had keloid whose surgery was done in CORSu.

### HOME BASED CARE PROGRAM

We made home visits and the families visited are doing well, we visited Timothy, Lillian, Sam, Daphine. And we are glad they are progressing both with their projects and health ways

## THE VOCATION SCHOOL

We the support from Accomplish Children's Trust our students at the centre are progressing in learning vocational skills differently in hair dressing and tailoring and we hope to have our first group graduate during the early next year.
