ABOUT US

We are a non-profit foundation that, with the motivation of working for one for our society, we have unified our objectives to a Cause, and it is to help the most disadvantaged; within them we have the victims of the armed conflict; vulnerable population, which have been immersed in a wave of terrorism that have hit hard to our country and our department is not alien to this problem and that seems not to end.

Facts that have left great consequences in the lives of these people, robbing them of peace and tranquility, causing in them a series of almost irreversible psychological traumas.

Hence our interest in working on behalf of these people, giving them all our support in order to guide them so that, by managing their emotions, they can move forward more confidently and confidently towards the search for a better quality of life.

Since we began our process in 2016 with 200 children and adolescents, 50 older adults and 100 young people to date we work with 900 children and adolescents where 78% had some type of psychologist trauma and at the moment we have 60% that has stabilized your emotional state.

And of the elderly we have 150 victims and vulnerable and 350 young people who are victims of the armed conflict.

With this staff we have been carrying out a series of events and activities such as:

Children and adolescents: with this stage we work what they are: learning an art, recreational days, playful and Creative Chat (I love myself- for personal improvement).

Young people: Here we carry out talks about improvement and entrepreneurship, workshops, activity-finding my talent, plays, walks near the area, walks.

Older adults: manual activities, short walks, sections of jokes, stories, contests etc.

MISSION

We are a non-profit organization with the purpose of working with marginalized populations, but with a greater focus on the victims of forced displacement since it is a more vulnerable type of population, contributing in its process of overcoming the traumas it has left this conflict.

VIEW

Continue to welcome these people by giving them the necessary help until they are completely restored, both in the emotional part with or in the opportunities to improve their quality of life. And to become a nationally and internationally recognized organization.
