

Thompson Services

Strengthening Children, Families, and Communities

Foster Care & Foster Parent Licensing

Private foster homes located throughout the Charlotte-metro and the Western NC region as well as training & support for dedicated families.

93% of clients reported satisfaction with Thompson Foster Care Programming.

Thompson Connect

Youth-driven & trauma-informed program dedicated to youth ages 12-17 currently in the custody of DSS Youth and Family Services. We provide short-term housing, assessment, and treatment with the goal of stabilizing and connecting these youth to a permanent home.

Friends of the Children - Charlotte

Evidence based mentoring program that provides a salaried, professional mentor to Charlotte's most at-risk youth for 12.5 years.

Outpatient Therapy Services (TOPS)

Wendover Road, Charlotte, NC; Fort Mill, SC

Individual, family, and group counseling as well as clinical assessments for youths and adults. *Available through private insurance & Medicaid.*

75% of TOPS clients improved with emotional problems.

Intensive In-home

Counseling and case management for children and families within their home or community setting, offering concentrated help towards achieving family stability.

Wraparound Program

Wraparound brings people together from different parts of a family's life to assist with complex mental health needs as youth transition from an inpatient PRTF, Level III, multiple hospitalizations, or therapeutic foster home. The goal is to assist them in navigating their community and finding independence.

Thompson Services

Strengthening Children, Families, and Communities

Services offered at other locations in NC & SC

Family Education

An array of evidence-based education classes for parents with children of various ages, aimed at fostering a strong foundation for successful parenting.

Child Development Center

Clanton Road in Charlotte, NC

Five star, high-quality child development center with emphasis on family support & developmentally appropriate practices for children six weeks old to five years.

90% of children with special needs demonstrated progress towards their individual plan goals.

Psychiatric Residential Treatment Facility

Saint Peter's Lane Campus in Matthews, NC

PRTF for children (ages 5-13) diagnosed with mental illness provides an intensive clinical setting within a safe, child-friendly living environment.

88% of children showed improvement with conduct problems.

Thompson Center for Early Childhood IMPACT

Promoting a secure start for children by *Improving and Maintaining Programs through Assessment, Consulting, and Training*. Professional support through quality enhancement, professional development, and child-focused behavior intervention for child development centers and homes.
